

To whom it may concern,

As a latina woman living in Bridgeport, CT. I feel the need to be able to carry some kind of personal protection on me at all times. Although I personally have a permit to carry, not everyone can acquire a permit for various reasons. Having the option to carry something like a stun gun can give a bit of peace to someone that wouldn't have any other means of protection. I feel strongly about this, not only because I live in a tough area, but because I have the right to protect myself and my family if and when the time comes. Giving the right to possess something as simple as a stun gun can save many from various heinous crimes such as muggings, and kidnappings. I fully support Act H.B 6491.

Act H.B. 6355 – As for Act H.B. 6355, As a CCDL member, I oppose for the simple reason that it should take more than a protection order to strip someone of their right to bear arms. There should be a conviction of some sort to be able to deem someone unable to possess a firearm. People may have an order against them that is based on false information or just not adequate information. In order to strip someone of their rights to possess a firearm, there should have been a crime where the person was convicted, not just a complaint. This would strip many legal gun owners of their rights for minimal reasons. I do not agree with this act and oppose it completely.

I thank you for the opportunity to be able to share my thoughts on these matters that can affect many law-abiding citizens.

Kind regards,

Ada perez

Bridgeport, CT.
